

MSVA Opens New Office to Provide Valuable Business Resources in East Gwillimbury

Lisa Martynuik invites local business owners to the Grand Opening of the MSVA Small Business Resource Centre in Mount Albert.

May 11, 2009 – Mount Albert, Ontario – MSVA, a company providing entrepreneurs and business owners with QuickBooks training, bookkeeping, general office administration, consulting, and other services, today announced the official Ribbon Cutting Ceremony on June 19 to celebrate the company's 8 years of success and support the business community in Mount Albert and surrounding areas.

Open to all business owners in the community, the Ribbon Cutting Ceremony, taking place at 4:00 pm on June 19 at 72 Main Street, will kick off the grand opening event MSVA owner, Lisa Martynuik, has planned to celebrate the expansion of her company. Close to the main intersection and other thriving businesses in Mount Albert, **MSVA's** new office building has two floors of functional office space and is equipped with the latest office technology, wireless internet, a video projector and serves as a fax and copy centre as well.

Martynuik says, "Like other entrepreneurs, I was holding important client meetings in cafés and coffee shops because other venues were too expensive for short periods of time. There was great need for affordable office space, and a conference room that businesses can rent by the hour, half-day or full-day. My goal is to provide affordable solutions to meet these needs and more."

Cathy Morton, a Town of East Gwillimbury Councilor, says, "My congratulations to Lisa on her achievement in not only continuing to grow her business, but also in helping to encourage new businesses to relocate to our community while maintaining a part of the heritage of Mount Albert in the restoration of one of our historic homes." Morton will attend the Ribbon Cutting Ceremony to show her appreciation for Martynuik's contribution to the commercial sector of Mount Albert.

By providing businesses with affordable office, conference and seminar space, Martynuik hopes to attract new businesses to the community and support entrepreneurship across the region. Creating a space where people connect and contribute to the growing business community by

hosting business education seminars, business networking meetings and speaking events is just one of the many solutions Martynuik plans to offer.

Vickie Pinkerton of LifeLines Creative Life Coaching says, "It's such a great concept, and one that is needed in our area. It can be a place to take clients when my home office isn't appropriate, a place to go when I don't have the right equipment and a place to get further training if I need it. Sounds like an opportunity for my vision to meet yours."
